

## FAMILY HEALTH CENTERS

## Research Interest Form Addendum Family Health Centers of San Diego

The purpose of this addendum is for research applicants to provide additional information regarding their research idea. Applicants should fill out the research interest form as well as this addendum. This addendum is for the FHCSD investigative team to get a better sense of the proposed research application. Please refer to the "Research Collaboration Guidelines" for a more detailed explanation on each section.

- 1. Expected Outcomes: What outcomes are expected from this project that will help FHCSD in improving minority health and addressing health disparities?
- 2. Budget: Please include the award amount/award cap, and the FHCSD personnel that you think may be required to assist in carrying out the project.
